Location, Lagos. Nigeria

PROFESSIONAL SUMMARY

I am a student of Nnamdi Azikiwe University Awka (400 Level), studying Electronics And Computer Engineering. I have an extensive experience and knowledge in web development, back-end systems and hardware-software integration. Skilled in building scalable applications, managing hosting environment and developing embedded automation solutions. I'm attentive to details and good at collaborating with team members. Willing to learn and be a part of something remarkable. I'm open to remote or on site roles.

EXPERIENCE/SKILLS

Self-Employed Developer (Freelance)

- Built and maintained web applications using Laravel and PHP.
- Managed hosting environments using cPanel, hPanel, and VPS servers.
- Handled deployments, domain configuration, and server optimization.
- Participated in development tasks and hardware-software debugging.
- Collaborated on technical problem-solving and system improvements

PROJECTS PORTFOLIO

- Ravegate (Founder & CEO) – Digital event ticketing company specializing in digital access management.
- Shambhost Vercel Integration – Collaboration with Shambhost to implement Vercel deployment workflows.
- Property Movers Booking System – Specialized logistics and relocation booking platform.
- Crestlink AI (LLM Website) – Platform for Large Language Model implementations.

- Telegram Mining Bot – Backend-integrated automation script for cryptocurrency mining.
- Gold E-commerce & Wallet System – Secure marketplace for precious metals with integrated digital wallets.
- Global Shipping Platform – End-to-end logistics and shipping website.
- Microprocessor Systems – Hands-on architectural and digital communication projects.
- Automation Scripts – Optimization of transaction bots and task workflows.
- Phrase System – Telegram-integrated backend system for automated data handling.

PROFICIENT WITH:

1. PHP & Laravel
2. Embedded C/C++
3. Java Programming
4. Arduino & ESP32
5. 8085 Microprocessor
6. API Integration
7. HTML, CSS, UI Design
8. Python (Automation)
9. Server Management
10. MySQL / PHPMysqlAdmin
